SQ WAVES

AUDIO NETWORKING CARD

The SQ Waves (M-SQ-Waves) card is an audio networking option card for the SQ range.

The Waves V3 card provides a 64x64 @ 48khz or 96kHz for the Waves SoundGrid protocol on Cat5e Copper.

The SoundGrid protocol is compatible with other brands using the SoundGrid protocol.

The SoundGrid protocol allows use of the Waves Plugins and interconnection with other SoundGrid enabled devices. also allows a PC/MAC Ethernet adaptor to be used as a 64x64 audio interface.

The Waves card is compatible with the SQ product range.

Key Features

- 64x64 channels 48/96kHz
- Up to 100m connection
